The client awarded S&D Flooring a contract to install a mixture of carpet tiles, sheet vinyl and vinyl planks to two new 9-storey student accommodation buildings on the University of Hull Campus.

Over 8 months of installation, S&D Flooring collectively installed over 10'393 square metres of flooring to 6, 8 and 10 bedroom student accommodation blocks and its supporting circulation areas. Our project manager adopted methodical approach to ensure S&D Flooring completed the project successfully. The #BoysinBlue were split into two teams who each worked on one floor at a time in co-ordination with other trades working on the project.
